

## BUILDING A BIG TEMPLE.

MORMON STRUCTURE AT CARDSTON IS ON LAVISH SCALE.

Great Building Now Days Roots Deep, presenting the Various States of the Universe Before and After the Fall. The Bow Island Building, Room, and Apartments for High-er Priests Are All Provided.

Another great occasion has come to the Mormon world. When Bow Island Alberta began to be populated with the first settlers in 1883, throughout all the years since, yearly visits were made by many of the Mormon leaders to the Bow Island, U.S.A. These visits were in most cases to perform duties in the temple there. It was in 1887 that the Bow Island and the authorities in Canada, to build a temple in Canada for the use of living members of the church. President Smith, of Salt Lake City, directed that the site of the original of the site a short time ago. A large delegation was present from Utah, and the Bow Islanders are well remembered in the history of the church in Canada. The new temple, however, was not built, but was erected on British soil. It is probable that the excavation will be completed this fall, and the building will not be begun till next spring, when work will be pushed with the utmost vigor.

The ceremonial work for which the new temple is intended, specifically baptism for the dead; ordination and associated endowments in the priesthood man-

ner, are to be performed for the living.

Each of these ordinances, for the dead, who are represented by an in-

visible proxy, "Ordination to the

High Priesthood" for the dead, ordi-

nance for the benefit and salvation of

dead relatives of Canadian Mormons.

It is probable that many different rooms will be required.

The most important of these

rooms is the baptismal room.

The Mormon Church is re-

cited of all who have lived to the

age of 120 years.

Those who are exempt. Many

ancestors of the Mormon people have

died before the age of 120, and for

those an opportunity of posthu-

ous salvation is given and the rite of

baptism performed.

Baptismal fonts are usually placed

in the basement floors and the accus-

ation of the Bow Island Car-

bonium temple. (Laying out of

hands will also be performed in this room).

In the lecture room of the temple

instruction is given to candidates re-

garding the importance of the present

time and the future.

The condition of Adam and Eve

in the garden of Eden, the punishment;

the plan of redemption as taught by the Mormon Church; the re-

turn of Christ, etc., are taught.

Those interested in the differ-

ent rooms, each devoted to a partic-

ular subject.

The card room represents the

earth as it was before sin entered and

the garden of Eden depicted in min-

iture. Ceiling and walls will be de-

corated with sun, moon and stars. The wall

will show sylvan groves, mon-

keys, apes, bears, and deer,

insects, birds, and beasts—in short,

the world soon will be painted

with scenes typical of the earth after

the fall of man, and the scenes typical

of the judgment of the world.

From the scene of tumult to the

peace and quiet of the ter-

restrial room. It is given illustrations

of the life of Jesus, the practical duties

of a wife, the care of a child,

and the care of the home.

The lectures in this room will be on

the fable of man, and the scenes typical

of the judgment of the world.

From the scene of the cardinal

rites to the celestial room.

In the celestial room the lighting is

subdued, the rise of celestial mat-

terials. In the Mormon fall marriage

ceremony, the celestial room is

life and performed in the temple.

In this ceiling room—containing par-

celled rooms, and no windows—

the walls are covered with the

Carson River, Alberta and

the Alaskan Boundary.

The Canadian Rockies boundary is

1,507 miles long.

## ANCIENT BONSECOURS.

Montreal's Great Market Is Picturesque Spot.

In the center of Montreal there gathers on certain days of the week, a buying, selling, bargaining, and haggling place. It is the most convenient place to transact a large selection of goods. You go early enough in the morning to the market, and there could have room enough to walk a boar to the proper place to come to this spot and purchase from a shopkeeper, but a shopkeeper, that is, a small shop, a grocery store, a confectioner, a butcher, a public market, so much talked about as a factor in cost-reduction, the guessers at the ridge of the rise in the price of living.

## PLANS WOLFE CHURCH.

Canon Scott Would Build Memorial To Here.

A proposal to erect a church to the memory of Wolfe, on a conspicuous site in the city of Quebec, which is now being opened up by the National Parks Commission, has been made by Rev. Canon Scott of Quebec. Already a beautiful avenue of trees has been put through, connecting the Park of the Plains with the Avenue of the Champs Elysees. The avenue is named the Avenue du Dr. Brasseur. The property has already been secured, the property having a frontage of 260 feet on the Avenue du Dr. Brasseur.

Standing on the present site one can see the battle field where Wolfe with his men fought, and when the trees are bare of foliage, one can see the monument to the memory of Wolfe.

Plans of the church have already been submitted, one of which is by Prof. A. C. Parker, of Oxford, England. The church will be built in the Gothic style, with a tower, a high altar, and a large choir.

#### LOCAL & GENERAL

It is the duty of the citizens of the  
town just as much as it is the duty  
of those who own large tracts of land,  
to keep down the weeds as much as  
possible. This year the weeds are especially  
troublesome and it is the duty of the  
utmost vigilance and the most careful  
attention if we are to avoid getting  
the district in a worse state than it  
has been for the past year or two.

(Calgary News-Telegram.)  
In view of the prohibition bill  
which will be voted upon by the people  
of Alberta on July 21st, it gives  
great pleasure to pass on the following  
tidy little helpful suggestion ap-  
pealing to the citizens of a con-  
temporary across the border, which was  
evidently anticipating a dry spell :

#### IF THE TOWN GOES DRY.

"Buy a gallon of your favorite  
brand and turn it over to your wife.  
Do all your drinking at home. Every  
time you take a drink, pay your wife  
15 cents.

"When the first gallon is gone your  
wife will have \$8.00 to put in the bank

and \$2.00 to buy a new supply, each  
gallon averaging 60 drinks.

"In two years at your present rate  
you will have paid and your wife will  
have enough money to go out and  
marry a decent man."

Yours affecately, called to the  
office of the newspaper and to the new ones.  
The merchants of our city appreciate your  
good will and this is the means of telling  
you of any bargains they may have to  
offer and to announce the arrival of  
new goods in all places at your  
disposal and insertion. By simply  
watching the columns of this paper  
you will learn the names of our busi-  
ness men who invite you to deal with  
them and can be sure that you will  
trust them to you right. A man  
who does not care enough for  
your trade to ask you to visit his store  
and who does not inform you of the  
goods he has to offer is not a  
half-worth your money. A man  
whose merchant will always let  
his customers know of the arrival of  
new goods to his store, and the way for  
his customers to do this is through  
the columns of this paper which goes  
into almost every home in the country.

two o'clock the next morning.

A bailiff's sale of farm machin-  
ery, belonging to R. W.  
Youngs, will take place on

the farm of C. H. Bell, north of  
Bow Island, on Thursday next,  
June 21st, at two p.m. R. S.  
Beattie, special bailiff, has  
charge of the arrangements.

Mr. and Mrs. W. S. Henry,  
of 38-10, 1/2 Bow Island,  
were visitors in town on Mon-  
day.

Mr. Henry reports the  
crops in his district are looking  
fine, the wheat especially, the  
length of which he thinks  
would average in the neighbor-  
hood of eight or nine inches.

Sonata E. Lobsack of Alas-  
kana, Minn., who gave a  
dramatic recital on Saturday  
evening, is a forceful exponent of prohibition, and

those who heard him cannot do  
aught else but admit that the  
case as presented by him in  
favor of prohibition must be  
convinced. He has the right to  
argue that the spirit of our  
constitution does not allow of us treat-  
ing his address at greater  
length.

Very small showers of  
rain have fallen in the district  
during the past week. Accom-  
panying these we have had  
rather chilly weather, which  
is not unusual in this part of  
the grain. A hailstorm is  
reported to have struck the  
Forty-Mile on Saturday night,  
without however doing any  
damage. Otherwise from re-  
ports gathered from various  
parts of the district, the crops  
are making good progress.

#### THE LIQUOR DEALERS CONDEMN THEIR OWN CASE.

The Liquor Dealers say in  
an ad. in The Edmonton  
Journal:

"That the proposed Liquor Act  
does NOT 'coddle' the liquor  
business, and does NOT 'drive it  
from the Province.'"

"There are dozens of loopholes  
in the proposed Act, but for  
the present let us mention just one:  
The proposed Act allows a druggist  
to sell liquor in bottles or in  
hand at a time. One would natu-  
rally expect such a quantity would  
be sufficient for medicinal purposes  
in any community yet to be created  
that Act provides for an appointment  
of a salaried 'vendor,' whose  
sole business it will be to distribute  
alcohol. Why this duplication?  
Why are both needed?"

(The Liquor People also say in an Ad. published in The  
Enterprise, May 13th):  
"..... Under the Act he would be prevented from  
buying liquor in the Province, except from a registered  
Druggist and upon a doctor's prescription for purely  
medicinal purposes."
